

Database Changes - 4 Apr 2024

Steps taken to ensure coherence with requirements and front-end

1. Removal of foreign key from JourneyTable
(journeyTable.employeeID → employeeTable.employeeID)
2. Remove employeeID from JourneyTable.
3. Add journeyID to employeeTable
4. Add foreign key constraint (employeeTable.journeyID → journeyTable.journeyID)
5. Added MOTID into Journey Table
