

Semester 2 deliverables - 30/01/2024

- Deliverables - as a Group:

- Main report - Builds on content of interim report
 - Project background - objectives, reflections, conclusion
 - Project management & reflections
 - Progress by end of contract & future directions
- Software Manual and documentation
 - Technical - aimed at future developers, maintenance
 - How was the software built - ideas, concepts, requirements, structures, patterns, technologies etc
 - How can the software be extended
- User Manual
 - Non-technical explanation for lay person
 - Instructions on how to use and install the software that you developed

- Repositories - supporting documentation with report

- Code repository + documentation
- Documentation repository
- Project management documentation
- Test documentation

- Showcase - In-person event on Wednesday 15th May - 9 till 4:30

- 20 minutes in total per team
- Demonstration video - initial goals, implementation, key achievements
- face to face formal presentation - live demonstration
- A moderated Q&A session
- Informal demonstrations

- Deliverables - Individual reports:

- **Your view on the project** - why did the team apply for the project and how it changed from the description in your view
- **Your role in the project** - what role did you take on, what contributions did you make and what difficulties did you face in your role
- **Reflection on working in a group** - How you found working in a group, the difficulties you faced, what constructive actions you take to resolve difficulties and your attendance.

- Peer Review:

- **Anonymous evaluation of all members** - ranking 1 - 5 and reasoning
- Peer review is marked, poor motivations will reduce your mark.
- Used to adjust and scale group marks - moderated by the project supervisor(s)
- You will not all get the same marks for the group components

- Assessment - Scaling:

- Assessment considers:
 - Group elements (80%)
 - Individual elements (20%)
- Group elements are scaled based on:
 - Individual reports
 - Group deliverables (e.g. document and code repositories)
 - Peer assessment (deviation from average)
 - Supervisor moderation

- Deadlines:

- Group deliverables - 3rd May

- Abstract
- Main report, software manual and user manual
- Document & code repository (Tag = "PrizeSubmission")
- Demonstration video

- Individual deliverables - 15th May

- Individual report
- Peer assessment
