

Meeting Minutes Document 13

Date: 28/11/2023

Time: 11:00 AM - 12:30 PM

Location: Computer Science Building, Jubilee Campus, University of Nottingham

Present (in order of attendance):

- Andreas - Team Admin
- Daniel - Deputy Git Master
- Aaron - Deputy Team Admin
- Mateusz - Git Master
- Humais - Git Helper
- Martin - Team Leader

Agenda:

- Welcome and introduction (5 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- Progress from last week (25 minutes):

- Here is what every team member has done so far this sprint:
 - Andreas & Aaron - nearly completed the desktop prototype and prototype documentation.
 - Andreas also fixed git with Mateusz
 - Jacob - Not present in the meeting but contracted me to catch-up - has created 3 models already including data being split up and cleaned.
 - Daniel - Nothing yet - Needs to think about the data points that we can send to Charlotte so that she can ask for.
 - Daniel was going to arrange a meeting with the AI team.
 - Humais - Looked at the database - made general tables made to populate - used Drool.Sql.app - online visualisation software - to see database tables
 - Mateusz:
 - Refactored Git repository - with Andreas
 - Renamed files to match conventions
 - Added files to .gitignore files
 - Dixon - Working with Humais.

- Martin:
 - Nothing yet but planning to do UML Diagrams today.
 - Done the initial Pitch deck for this week.
 - Created some other designs for the web app that will be shown to the UI team.
 - Also created a important document that will outline how the initial deliverable will the completed.

- Deliverables for tomorrow (60 minutes):

- These are the deliverables for the company contact meeting:
 - Martin:
 - Creating a Sequence diagram for each prototype
 - Show Andreas the other designs for each prototype
 - Andreas - fill in the SCRUM points documentation up to sprint 5 and upload meeting minutes document to git
 - Aaron - Complete the final two pages for the desktop prototype.
 - Jacob - Not present in the meeting but caught up after with Andreas - discuss with the AI team what needs to be done
 - Daniel - Have a discussion with the rest of the AI team and filter out irrelevant data.
 - Dan knows what they need to do
 - Documentation that visualises what the AI model will do
 - Humais - Will send a document on what he has done tomorrow.
 - Will add the actual data - not sure about what data the ai team is using - they need to let them know
 - Mateusz - Will work with Dan and Jacob for the AI teams and what they need to do.
 - Documentation that visualises what the AI model will do
 - Dixon - Will send a document on what he has done tomorrow.
 - Will add the actual data - not sure about what data the ai team is using - they need to let them know

Next Meeting: Wednesday 29th November - Time: 11:00PM - Place: Computer Science Building
