

Minutes Document 18.1 - AI and UI Meeting

Date: 13/02/2024

Time: 11:00 AM - 11:45 PM

Location: Computer Science Building, Jubilee Campus, University of Nottingham

Present (in order of attendance):

- Andreas - Team Admin
- Jacob - Deputy Team Leader
- Mateusz - Git Admin

Agenda:

- Welcome and introduction (5 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- What needs to be discussed (15 minutes):

- What diagrams the AI will be producing - may need to redesign the dashboard to accommodate these diagrams
 - What the input data for the AI will be - make sure it is to do with the use case we have selected
 - Need to have some place to store previous business decisions

- What was discussed and decided (25 minutes)

- Diagrams the AI is going to produce:
 - Dan made a neural network - 2D diagrams - produced in python
 - Scatter diagrams
 - Line diagrams
 - Limited amount of data online about - Thinking about creating more use cases
 - Will carry on with the current use cases - may have to look at others.
- Input data - The page is split up into three sections - one for each use case - three different models - user inputs their energy usage and a date for prediction
 - User previous projects will be stored in a database and fetched - speak to the backend team for this

- **POTENTIAL USE CASE** - ESG rating - economic social and governance - a company may want to find their own ESG rate

- **Deadlines:**

- Soft Deadline - Thursday 22th February
- Hard Deadline - Thursday 29th February

Next Meeting: Thursday 15th February- Time: 1:00PM - Place: Computer Science Building
