

Minutes Document 19

Date: 15/02/2024

Time: 1:00 PM - 1:20 PM

Location: Computer Science Building, Jubilee Campus, University of Nottingham

Present (in order of attendance):

- Andreas - Team Admin
- Martin - Team Leader
- Mateusz - Git Admin
- Humais - Git Helper

- James Pernet - New Company contact

Agenda:

- Welcome and introduction (1 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- What needs to be discussed (4 minutes):

- Updating the company contact with what the team has done so far
 - Done by Martin, Andreas, Humais and Mateusz through the pitch deck.

- What was discussed and decided (15 minutes)

- Recurring meetings with neelima - once every two weeks
- Things to make sure:
 - Exactly how the outputs are being used - what impact do we want to have
 - What decisions are being made with those outputs - being able to support
 - Looking at the picture at the right angle - solar panels - looking at the opportunity costs - boorder context - are we assuming the energy mix is unchanged? - transmission costs and transition losses - hidden efficiency if we generate the energy on site
 - AI team should have a meeting with the company contact to discuss their next steps in the AI development process - looking at use cases.
 - Martin needs to write an email:
 - All the administrative stuff that the group is doing - Andreas will send him the demonstration videos as of now for the prototype in figma and the webapp - ask about the AI algorithms that he mentioned in the meeting.
 - Write specifics in the email!
