- Talk about the history of the project - having Charlotte
- Specifically concerned with the fact that the project doesn't have a large enough scope for AI
 - Try and convince him that we can still use a machine learning model to predict the trends - even if it is affected by external factors - he looked at the predicting trends - statistics and visualisation, like graphs trend lines on the dashboard.
 - Then Jacob can talk about the MLM calculators that he and the 'AI team' are planning to make - will make a small plan for him to do so.
 - Make sure we organise the Tuesday - 14.30 to 16.00 so the AI team can discuss specifics.
