

Minutes Document 24

Date: 12/03/2024

Time: 5:00 PM - 6:00 PM

Location: Computer Science Building, Jubilee Campus, University of Nottingham

Present (in order of attendance):

- **Andreas** - Team Admin
- **Martin** - Team Leader
- **Aaron** - Deputy Team Admin
- **Daniel** - Deputy Git Master
- **Mateusz** - Git Admin
- **Humais** - Git Helper
- **James Perrott** - Company contact

Agenda:

- Welcome and introduction (1 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- What needs to be discussed (9 minutes):

- The group shows James the report and the outline document that we created over the weekend outlining the direction of the project and how we will be working for the next few weeks

- What was discussed in the meeting (50 minutes):

- Absolute carbon can be something we look at
- We need to look at what time people set off to get to work
 - Can partition the data between people who arrive in specific times - three different times - to demonstrate that we have thought about it not just ignored
- Try and focus on the security aspect of things - can get more marks
- Have 3 entities for the carpool - a feature that can be added later on in the development
- Marriage algorithm to implement for 2 sets, 1 to drive and another that wants to be driven
- Feedback - The doc is fit for purpose and we should get started as soon as possible
- Assumption - Numbers of users - Make sure we take that into account.

- What we need to do for Thursday (45 Minutes):

- Take a look at the AWS side of things
- Look at elastic search
- Carry on with the tasks given on Friday

Next Meeting: Thursday 14th March - Time: 1:30PM - 2:30PM - Place: Computer Science Building
