- **Mateusz** - Git Admin
- **Humais** - Git Helper
- **Daniel** - Deputy Git Master
- **Jacob** - Deputy Team Leader
- **Aaron** - Deputy Team Admin
- **Dixon** - Team Member
- **Martin** - Team Leader
- **James Perrott** - Company Contact

Agenda:

- Welcome and introduction (5 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- What needs to be discussed (45 minutes):

- Showcasing all the teams progress to the company contact, AI, UI and backend
- His feedback:

- He was very impressed with the UI and the progress we have made
- He asked about user validation and how we are dealing with that and if

we have a plan on how to implement it - we do and we have been in contact with the backend team to sort this out - he was impressed with the user verification stuff the backend team has done.

- He was impressed with the AI team and what they have managed to implement

- Overall he is happy with our progress as a team and is looking forward to the next meeting - organised a meeting with him - 1:00pm - 2:00pm 11th April

- What we need to do for Friday (10 Minutes):

What each team needs to do:

- What the table schema uses - everything the user inputs and outputs into the system - Input and output and the tables that we
- Creating some sort of matching page concept - like matching a person on the location, department or starting time for example
- EXTRA - Come up with tables for the requirements of your teams for what you want the database to do.

- Next sprints instructions will be given in the next meeting

Next Meeting: Friday 29th March - Time: 3:00PM - Place: Online
