

Minutes Document 33

Date: 15/04/2024

Time: 3:00 PM - 5:00 PM

Location: Online

Present (in order of attendance):

- **Andreas** - Team Admin
- **Mateusz** - Git Admin
- **Humais** - Git Helper
- **Jacob** - Deputy Team Leader
- **Daniel** - Git Helper
- **Aaron** - Deputy Team Admin

Agenda:

- Welcome and introduction (5 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- What was discussed (55 minutes):

- UI/Andreas shows:

- Showed the updated visuals with the results that are taken from the Similarity Search - showed what it looks like on the UI and the code itself.

- The MLM Team:

- Showed the updated Similarity Search code

- The Backend Team:

- Showed the team the user authentication system in action, visually and going through the code.

- Deliverables for Friday (60 Minutes) - Hard Deadline the Weekend to show Neelima!

- Andreas:

- Reimplement the similarity search/flask code to work with the updated code.
- Add the fetching the userID for the email so that the results are dynamically changing and not just for a hardcoded user.

- Try and finish the UI section of the software manual with Aaron
- Help finish the User manual with Aaron
- Comment and Tidy Up code for 'Software' Part of the Rubric
- Work with Daniel and Jacob to get the final report done and ready to be reviewed.

- Organise a meeting with Neelima for next Monday 22nd

- Humais:

- Implement an email verification system
- Work with Andreas to double check that everything has been implemented and working together - making sure integration is working just fine.

- Write up the Backend Section on the Software Manual
- Comment and Tidy Up code for 'Software' Part of the Rubric
- Try and move our webapp to be hosted on a server so multiple people can access it at any given time

- Aaron:

- Get the Account Page finished up
- Finish the User manual with the help of Andreas
- Write up the pages you've done on the UI section on the Software Manual
- Comment and Tidy Up code for 'Software' Part of the Rubric

- Daniel & Jacob:

- Work on completing the Final Report with help from everyone when needed to write about the sections of the project that they undertook.
- Write the MLM section on the Software Manual for the similarity search for Dan and the graphs for Jacob.
- Jacob - Create the doc so Danielk and Andreas can help write the first sections of the Final Report

- Dixon

- Work with Humais to try and move our webapp to be hosted on a server so multiple people can access it at any given time.

- Mateusz:

- Finish up with the Similarity Search stuff
- Write the MLM section on the Software Manual for the similarity search code with Dan

- Martin:

- Send the Team the report so that Daniel, Jacob and Andreas can look at it and try to integrate it with the final report.

- TASK FOR EVERYONE - Merge their branches with main so that they're branch is up to date with main - just makes it easier for the end product.

Next Meeting: Friday 19th April - Time: 3:00PM - 4:00PM - Place: Online
