- Starting Approach (25 minutes):

- Set up a meeting on Wednesday 30th to discuss KPIs
 - Give us some deadlines and deliverables for what they want to see from us.
- We have decided to use Azure as we get it for free for 12 months, as we are students.
- Uses Cases - Optimizing data center energy usage using AI algorithms to reduce carbon emissions.
 - Do they want multiple?
- What do they expect for the prototype to do:
 - User Interface - Login System?
- How often they want to meet with the team - Are we going to be meeting in person?
- Do you have any data in-house that we can use?
 - Use it to train our AI model.

- Deadlines to Submit (20 minutes):

- Submit a **prototype and interim report on the 15th of December** (your supervisor may request an informal demo of the prototype as part of this).
- Document the **project management process** throughout the project through meeting minutes, Trello boards, etc. (see project handbook for more details).
- Use **the allocated repository on the school's gitlab server** and, if applicable, mirror any external repositories regularly onto the gitlab server.
