

Meeting Minutes Document 8

Date: 01/11/2023

Time: 11:30 AM - 12:35 PM

Location: Computer Science Building, Jubilee Campus, University of Nottingham

Present (in order of attendance):

- Andreas - Team Admin
- Humais - Git Helper
- Dixon - Team Member
- Mateusz - Git Master
- Aaron - Deputy Team Admin
- Martin - Team Leader
- Daniel - Deputy Git Master

Agenda:

- Welcome and introduction (5 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- What we want to mention on the meeting (10 minutes):

- Set up a meeting on Wednesday 30th to discuss OKRs
 - Give us some deadlines and deliverables for what they want to see from us.
- We have decided to use Azure as we get it for free for 12 months, as we are students.
- Uses Cases - Optimising data centre energy usage using AI algorithms to reduce carbon emissions.
 - Do they want multiple?
- What do they expect for the prototype to do:
 - User Interface - Login System?
- How often they want to meet with the team - Are we going to be meeting in person?
- Do you have any data in-house that we can use?
 - Use it to train our AI model.

- Discussion during the meeting with Supervisors and Company Contact (20 minutes):

- Design of the UI:
 - Use Eviden Branding - will send us some resources to use - Bright orange, bold colours
 - Minimalism

- Focus on functionally.
- For use cases - send us the data to create use cases

- Deadlines to Submit (10 minutes):

- Submit a **prototype and interim report on the 15th of December** (your supervisor may request an informal demo of the prototype as part of this).
- Document the **project management process** throughout the project through meeting minutes, Trello boards, etc. (see project handbook for more details).
- Use **the allocated repository on the school's gitlab server** and, if applicable, mirror any external repositories regularly onto the gitlab server.

- Tasks for the team (20 minutes)

- Tasks for Everyone:
 - Make sure everyone downloads and takes a look at the Interim report and individual reports - can start now or just be mindful that we need to fill it in
- Andreas:
 - Add the meeting minutes documents to Git and readme x2
 - Outline the approach we are planning to take - in detail.
 - Reviewing all documents created within this time - send them to him.
- Martin:
 - Set up a recurring meeting with the supervisor - 12-1 on wednesdays
 - Supervisor fortnightly meetings - Charlotte weekly - for the first month
 - Work on Pitch deck on current market solutions - others will research.
 - Send Charlotte your previous examples for the UI.
- Jacob:
 - Create some Use cases we can use.
 - If there are any big data storages online we can use
 - Look at all sorts of data points - so size of data, carbon emissions etc.
- Humais:
 - Create some Use cases we can use.
 - If there are any big data storages online we can use
- Aaron - Research if there are any existing solutions - report back to Martin
- Mateusz:
 - Add deadlines onto Git as tasks- see 'deadlines to submit' section above.
- Dixon - Research if there are any existing solutions - report back to Martin
- Daniel - Research if there are any existing solutions - report back to Martin

Next Meeting: TBC - Time: TBC - Place: Computer Science Building

Respectfully submitted by Andreas Sergiou
