

Meeting Minutes Document 9

Date: 07/11/2023

Time: 12:05 AM - 1:05 PM

Location: Computer Science Building, Jubilee Campus, University of Nottingham

Present (in order of attendance):

- Andreas - Team Admin
- Mateusz - Git Master
- Humais - Git Helper
- Dixon - Team Member
- Daniel - Deputy Git Master
- Aaron - Deputy Team Admin
- Martin - Team Leader

Agenda:

- Welcome and introduction (5 minutes):

- Call the meeting to order
- Converse with present team members
- Briefly introduce the purpose of the meeting

- Market Research Review (10 minutes):

- We'll begin by reviewing the research findings on current market solutions. Please have any documents or summaries ready to discuss.
- Aaron and Daniel show they're findings on the market research on existing solutions
 - If we were to make software that is similar to one that is on the market already it would be the second point - 'Data-drive Solutions to Suitable Development Goals by Contino' - this is on the research document submitted by Aaron.

- Project Prototype Structure (15 minutes):

- Andreas goes through the large document outlining the structure of the prototype.
- Everyone is aware of what tasks they need to do and what needs to be delivered by the end of the week

- Use Case discussion (15 minutes):

- Jacob goes over the use cases he has created, explaining the reasoning behind why he has picked these use cases.
 - He has also had a chance to look at large data stores that we can use.
- Humais does the same thing - explaining in depth about the use cases

- Pitch Deck Update (15 minutes):

- Martin updates the group on how the pitch deck is coming along.
 - Almost finished with it, just adding some slides to do with the research we were asked to do by the company contact on existing solutions.

- Tasks that need to be done:

- Looking at Figma - creating a project that everyone can collaborate on - can split up into teams - see Project Structure document
- Jacob and Andreas:
 - Collate all the necessary documents that have been made
 - Reformat the structure of git
 - Make git folders - so weekly folders so we have different versions of what we are doing.

Next Meeting: Wednesday 8th October - Time: 12:00PM - Place: Computer Science Building - Meeting with Company Contact

Respectfully submitted by Andreas Sergiou
